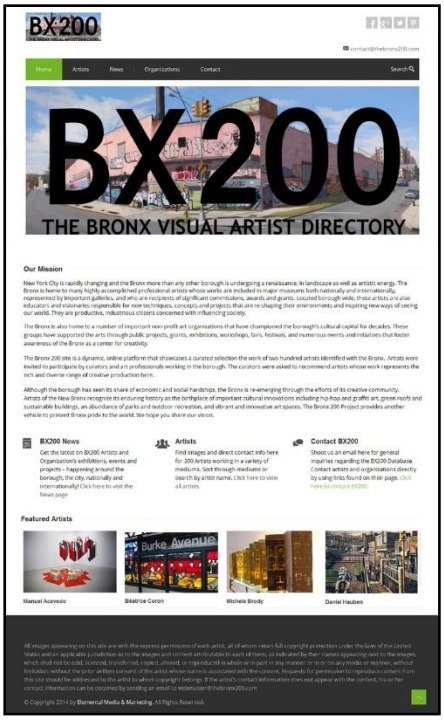
BX200 Website

The Bronx 200 site is a dynamic, online platform that showcases a curated selection of artwork by two hundred artists identified with the Bronx. Artists were invited to participate by curators and art professionals working in the borough. The curators were asked to recommend artists whose work represents the rich and diverse range of creative production here. The primary goal of The BX200 website is to connect the borough's artists and art organizations to curators, collectors, art enthusiasts, businesses and other artists worldwide.



In addition to the online platform, we also engage the community through special events, including BX200 Virtual Artist Studios, and art exhibitions. In 7 months we have become the pre-eminent space for Bronx Arts, with the respect of the local and city-wide arts community.
